Home

Fracked

Shoot, ski, and climb your way through an extreme VR
adventure.

- Fracked is a PlayStation VR shooter that seamlessly
combines relentless 'run-and-cover' gunfights with free
and fluid skiing and climbing.

- Stranded in a remote mountain facility, you play as a
reluctant hero forced into a final stand between the planet
and a legion of interdimensional enemies.

- Created by nDreams (Phantom: Covert Ops) for PS VR and
PlayStation Move controllers, an innovative cover system
will have you peeking out from behind environmental
objects and outflanking enemies to gain the advantage.

Problems Faced:

- **Responsiveness:** Making the webpage responsive was a challenge as some of the elements changed their positions when screen size was changed.

- **UI and UX:** Making the UI more user friendly and optimizing the User Experience.
LEARNINGS

Creating cart system on webpage

Changing images on click

Changing whole set of data on comparison page

Deeper understanding of various concepts of HTML, CSS, JavaScript
